One Piece or a Multi-Million Dollar Project

IDFI Makes It Happen

IDFI receives multi-million dollar bid from world's leading protein producer!

IDFI is currently completing a major multi-million dollar Boning Table project for the world's leading protein producer. This project included the design, layout, fabrication, and installation of over 2000 feet of Boning Tables and 10,000 feet of Trim Fat Conveyors.

IDFI concludes multi-million dollar project from world's largest privately held company!

IDFI recently concluded a multi-million dollar project for the nation's largest privately held corporation. This project included the design, layout, fabrication, and installation of pace tables, work platforms, ergonomic stands, and conveyors. This project also called for the design, fabrication, and installation of an overhead chain system.
